Abstract (0,5s)

1. Introduction to screen tourism co-production (3s)

- * *Alternative Title: Introduction to media, destinations/leisure industries and post tourists*
- * Start with Lynne Kirby's inspiration (Use the paragraph of the old BD-Arbeit)
 - ◊ It has only two categories: Silent Cinema (media) and railroads/trains (tourism/Destination) (S6)
 - ◊ Reijnders is adding a third player with the Government that co-produces with the other two the tourism/imaginative heritage/~screentourism
 - ◊ I am using some more defined and distinct categorizations of co-production: ST, Desti, Prod
 - ◊ Screen tourism as subcategory (or more extreme form) of post tourism
- * Primary research and casestudy questions (S7?)
- * Demarcations hint (S8)
- * Structure (S8)

2. Theories and definitions of screen tourism (65s)

2.1. Terms and Definitions (10s)

- * Begriff Filmtourist/Sreentourism/Film induced tourism
- * Def. Screentourism
 - ◊ No screentourism role separation (serendipitous etc. S11)
- * Terms
 - ◊ The Screen (S11)
 - ◊ Screen product (S12)
 - ◊ Screen location (S12)
- * Def. Post tourism (S13)
- * Def Social networks (S13)
- * Def Mediatisation (Jansson) (S14)
 - ◊ New addition or differentiation with medialization with "l" as something distinct from mediatization with "t".
- * Def. Case study categories: Screen tourism, Destination, Production (S14)
 - ◊ + Abbreviations (S16)
- * Def. ST communication (S15)
- * Def. Motive and Photographer (S15)

- * Def: fandom and fans (S16)

2.2. Research question (1s)

- * Q 1: How is screen tourism and its co-production situated in the meta processes and the philosophy of the world.

- * Version: How are the „screen tourism & co-production“ categories situated in the meta processes and the philosophy of the world.

- * *Answered in chapter 2.3.2 (and maybe 4.1)*

2.3. The philosophies and meta-processes behind screen tourism (40s)

2.3.1. Core philosophies and theories (15s)

- * Philosophy Simulation and Hyperreality (Baudrillars)
- * Meta process mediatization (Jansson)
 - ◇ + differentiation with medialization
- * Current state of post tourism (Urry, Jansson)
- * Media & co-production categories (Reijnders)
 - ◇ With changing from media to screen tourism
 - ◇ Adjusted co-production categories as distinct agents
 - ◇ Additional layer of social media (Instagram) on top of the material destination environment

2.3.2. Development and path dependencies of tourism and media (25s)

- * Startingpoint: Protocinema and Lynn Kirby
 - > Media and Tourism collide
- * Entdeckung der Freizeit
 - > creating the ST category -> and the tourism industry
- * Tourism in media:
 - ◇ Genres: City Film, Reisefilm, Newsreel, Traintrack Movies
 - > Co-production of Desti and Media
 - ◇ Wandernde Filmausstellungen -> Media as tourists
- * ((Beschleunigung der Welt: Eisenbahn > Flugzeug, Filme > SoMe))
- * ((Verkleinerung: Europa > Welt (Auto & Flugzeug), Kinos > Smartphone (Welt in der Tasche)))
- * Postmoderner Shift
 - ◇ Post modernismus
 - > Puts the post into tourism
 - a (fordist to post fordist)
 - b (Mass tourism to individual tourism)
 - ◇ Vernetzung und digitalisierung
 - > Hyperreal level to ST
 - ◇ Post-faktisch
 - > Baudrillards Simulation
 - ◇ Experience Culture führt zu Experience Economy
 - > Post tourism structures

- * Hyperrealismus/Simulation (Baudrillard) und gemachte Wirklichkeit
-> Realität so wie man sie will

2.4. Theoretical perspective and demarcations to other works (15s)

2.4.1. Inspiration, approach and demarcation (3s)

- * S65 – 67 of original Work

2.4.2. Theoretical perspective of this work (12s)

- * Sommerlad Email (24.06.): „Bezogen auf die Gliederung würde ich dir empfehlen nochmal zu überlegen, ob du das theoretische Kapitel noch etwas stärker aufdröselst und ggf. ein Kapitel mit deiner eigenen theoretischen Perspektive einfügst, als abschließende Rahmung.“
- * Own adaptations to the theory in this chapter

3. Casestudy: Bergdoktor screen tourism at the Wilder Kaiser (115s)

3.1. Research questions for the case study (3s)

3.1.1. RQ 2: What is the connection, differences and similarities between the involved agents in their communication of screen tourism over the social networks? (2s)

- * RQ 2.1: How and why are Fan-Tourists communicating their screen tourism over the social networks?
- * RQ 2.2: How and why is the Destination marketing communicating their screen tourism over the social networks?
- * RQ 2.3: How and why is the Production crew communicating their screen tourism over the social networks?
- * *Answered in chapter 3.4*

3.1.2. RQ 3: How are the involved agents co-producing screen tourism? (1s)

- * What Reijnders is doing in his Text Q3.1H
- * *Answered in chapter 3.5*

3.2. Retrieval method and modality of the acquired data (15s)

3.2.1. Approach to data retrieval (8s)

- * S72 and 78 of original work

3.2.2. Mode of transformation (3s)

- * S79 – 81 of original work

3.2.3. Modality of the data (4s)

- * S82 – 85 of original work

3.3. Case study basic (12s)

3.3.1. Essentials about the Bergdoktor screen product (6s)

- * S86 – 91 from original work.

3.3.2. Situation of the Wilder Kaiser as screen tourism backdrop (6s)

- * S92 – 97 from original work.

3.4. Data analysis and outcome of the case study (70s)

3.4.1. Social Media communication of Screen Tourists (20s)

3.4.2. Social Media communication of the Destination (15s)

3.4.3. Social Media communication of the Production (10s)

3.4.4. The Connections, differences and similarities between the involved agents in screen tourism communication (15s)

- * S98 – 179 from original work

3.5. Summarized findings in the screen tourism co-production case study (15s)

- * Answer to RQ 3 in chapter 3.1.2

4. Conclusion of screen tourism development and discussion about its co-production (40s)

4.1. Conclusion of the development of screen tourism (30s)

- * Maybe chapter 3.5 here?
- * This needs even less pages!

4.2. Discussion of new categorizations in screen tourism co-production (10s)

- * *Show the new categories*
- * *Demonstrate what they can offer for screen tourism and post tourism research*
